NOTES ON INTERIM CONDENSED FINANCIAL STATEMENTS

1 GENERAL INFORMATION ABOUT THE COMPANY

TRASTOR REAL ESTATE INVESTMENT COMPANY, formerly PIRAEUS REAL ESTATE INVESTMENT COMPANY (referred to as "the Company"), operates with the single objective of managing investment property portfolio in accordance with Law 2778/1999 and Codified Law 2190/1920. The main activity of the Company is to lease properties under operating lease agreements.

The Company operates in Greece and its registered office is located in Athens (116, Kifissias Ave and 1, Davaki Street).

The Company's shares are traded on the Athens Stock Exchange.

The consolidated statements of the Group incorporate the financial statements of its subsidiary "REMBO S.A." by means of full consolidation. "REMBO S.A." was acquired by 100% on 08.12.2009. Its main objective is property management, it operates in Greece and its registered office is located in Athens (116. Kifissias Ave and 1. Dayaki Street).

The interim condensed financial statements of the Company are incorporated, by using the equity method, in the consolidated financial statements of the following companies: a) "PASAL DEVELOPMENT S.A." listed on the ATHEX and domiciled in Greece, which owns 37.08% of the share capital of the Company and b) "PIRAEUS BANK S.A." listed on the ATHEX and domiciled in Greece, which owns 33.80% of the share capital of the Company.

The present financial statements were approved by the Company's Board of Directors on the 17th of May 2012.

2 GENERAL ACCOUNTING POLICIES OF THE GROUP

The same accounting policies and calculation methods have been followed as in the annual financial statements for the year ended 31st December 2011.

2.1 Basis of preparation of the interim condensed financial statements

The interim condensed financial statements for the period ended 1st March 2012 have been prepared in accordance with the International Accounting Standard (IAS) 34 "Interim Financial Reporting" and should be read along with the Group's annual financial statements for the year ended 31 December 2011, which were compiled on the basis of the International Accounting Standards.

2.2 New accounting standards and interpretations issued by the IFRIC

New standards, amendments to standards and interpretations: certain new standards, amendments to standards and interpretations have been issued that are mandatory for accounting periods beginning during the current accounting period or later. The Group evaluates the effect of these new standards, amendments and interpretations as follows.

Standards and Interpretations effective from periods beginning on or after 1st January 2012

IFRS 9 "Financial Instruments" (effective for annual periods beginning on or after 1 January 2015)

IFRS 9 is the first phase of the Board's project to replace IAS 39 and deals with the classification and measurement of financial assets and financial liabilities. The IASB intends to expand IFRS 9 in subsequent phases in order to add new requirements for impairment and hedge accounting. The Group is currently investigating the impact of IFRS 9 on its financial statements. The Group cannot currently early adopt IFRS 9 as it has not been endorsed by the EU. Only once approved will the Group decide if IFRS 9 will be adopted prior to 1 January 2015.

IFRS 13 "Fair Value Measurement" (Effective for annual periods beginning on or after 1st January 2013)

IFRS 13 provides new guidance on fair value measurement and disclosure requirements. These requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRS. IFRS 13 provides a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRS. Disclosure requirements are enhanced and apply to all assets and liabilities measured at fair value, not just financial ones. This standard has not yet been endorsed by the EU.

IFRS 7 (Amendment) "Financial Instruments: Disclosures" – transfers of financial assets (effective for annual periods beginning on or after 1st July 2011):

This amendment sets out disclosure requirements for transferred financial assets not derecognised in their entirety as well as on transferred financial assets derecognised in their entirety but in which the reporting entity has continuing involvement. It also provides guidance on applying the disclosure requirements.

IAS 12 (Amendment) "Income Taxes" (effective for annual periods beginning on or after 1st January 2012)

The amendment to IAS 12 provides a practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model in IAS 40 "Investment Property". This amendment has not yet been endorsed by the EU.

IAS 1 (Amendment) "Presentation of Financial Statements" (effective for annual periods beginning on or after 1st July 2012)

The amendment requires entities to separate items presented in other comprehensive income into two groups, based on whether or not they may be recycled to profit or loss in the future. This amendment has not yet been endorsed by the EU.

IAS 19 (Amendment) "Employee Benefits" (effective for annual periods beginning on or after 1st January 2013)

This amendment makes significant changes to the recognition and measurement of defined benefit pension expense and termination benefits (eliminates the corridor approach) and to the disclosures for all employee benefits. The key changes relate mainly to recognition of actuarial gains and losses, recognition of past service cost / curtailment, measurement of pension expense, disclosure requirements, treatment of expenses and taxes relating to employee benefit plans and distinction between "short-term" and "other long-term" benefits. This amendment has not yet been endorsed by the EU.

IFRS 7 (Amendment) "Financial Instruments: Disclosures" (effective for annual periods beginning on or after 1st January 2013)

The IASB has published this amendment to include information that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities, on the entity's financial position. This amendment has not yet been endorsed by the EU.

IAS 32 (Amendment) "Financial Instruments: Presentation" (effective for annual periods beginning on or after 1st January 2014)

This amendment to the application guidance in IAS 32 clarifies some of the requirements for offsetting financial assets and financial liabilities on the statement of financial position. This amendment has not yet been endorsed by the EU.

Group of standards on consolidation and joint arrangements (effective for annual periods beginning on or after 1st January 2013)

The IASB has published five new standards on consolidation and joint arrangements: IFRS 10, IFRS 11, IFRS 12, IAS 27 (amendment) and IAS 28 (amendment). These standards are effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted only if the entire "package" of five standards is adopted at the same time. These standards have not yet been endorsed by the EU. The Group is in the process of assessing the impact of the new standards on its consolidated financial statements. The main provisions are as follows:

IFRS 10 "Consolidated Financial Statements"

IFRS 10 replaces all of the guidance on control and consolidation in IAS 27 and SIC 12. The new standard changes the definition of control for the purpose of determining which entities should be consolidated. This definition is supported by extensive application guidance that addresses the different ways in which a reporting entity (investor) might control another entity (investee). The revised definition of control focuses on the need to have both power (the current ability to direct the activities that significantly influence returns) and variable returns (can be positive, negative or both) before control is present. The new standard also includes guidance on participating and protective rights, as well as on agency/principal relationships.

IFRS 11 "Joint Arrangements"

IFRS 11 provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. The types of joint arrangements are reduced to two: joint operations and joint ventures. Proportional consolidation of joint ventures is no longer allowed. Equity accounting is mandatory for participants in joint ventures. Entities that participate in joint operations will follow accounting much like that for joint assets or joint operations today. The standard also provides guidance for parties that participate in joint arrangements but do not have joint control.

IFRS 12 "Disclosure of Interests in Other Entities"

IFRS 12 requires entities to disclose information, including significant judgments and assumptions, which enable users of financial statements to evaluate the nature, risks and financial effects associated with the entity's interests in subsidiaries, associates, joint arrangements and unconsolidated structured entities. An entity can provide any or all of the above disclosures without having to apply IFRS 12 in its entirety, or IFRS 10 or 11, or the amended IAS 27 or 28.

IAS 27 (Amendment) "Separate Financial Statements"

This Standard is issued concurrently with IFRS 10 and together, the two IFRS supersede IAS 27 "Consolidated and Separate Financial Statements". The amended IAS 27 prescribes the accounting and disclosure requirements for investment in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. At the same time, the Board relocated to IAS 27 requirements from IAS 28 "Investments in Associates" and IAS 31 "Interests in Joint Ventures" regarding separate financial statements.

IAS 28 (Amendment) "Investments in Associates and Joint Ventures"

IAS 28 "Investments in Associates and Joint Ventures" replaces IAS 28 "Investments in Associates". The objective of this Standard is to prescribe the accounting for investments in associates and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures, following the issue of IFRS 11.

3 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

Estimates and judgments are continually evaluated and are based on historical experience and other factors including expectations of future events, which under the current conditions, are likely to occur.

The Group makes estimates and assumptions concerning future events. These estimates rarely relate to the actual results that may arise. The estimates and assumptions made for the interim financial results are the same with the ones made for the Annual Report 2011.

The estimates and assumptions that involve significant risks of causing material adjustments to the book value of assets and liabilities within the next financial period are outlined below:

3.1 Key accounting estimates and assumptions

a) Estimate of fair value of investment properties

The best evidence of fair value is current prices in an active market for similar lease and other contracts. In the absence of such information, the Company determines the amount within the range of reasonable fair value estimates, on the basis of the advice provided by independent surveyors.

In making its judgement, the Group considers information from a variety of sources including:

- (i) Current prices in an active market for properties of different nature, condition or location (or subject to different lease or other contracts), adjusted to reflect those differences.
- (ii) Recent prices of similar properties in less active markets, adjusted so as to reflect any changes in economic conditions since the date of the transactions at those prices.
- (iii) Discounted cash flow based on reliable estimates of future cash flows, derived from the terms of any existing lease and other contracts and (where possible) from external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

b) Main assumptions of the Management to estimate fair value

In the absence of current or recent prices, the fair value of properties is determined by using discounted cash flow methods.

The Group uses assumptions based mainly on prevailing market conditions at the date of the balance sheet. The main assumptions that support Management's estimates as for the determination of the fair value are those related to the collection of contractual rents, expected future market rents, vacancy periods, maintenance expenses as well as appropriate discount rates. Those assessments are systematically compared with actual market data, Company transactions and announced market transactions.

Expected future rents are estimated on the basis of current market rents for similar properties in the same location and condition.

3.2 Substantial judgments of the Management for the application of accounting standards

Classification of recently acquired properties as investment or owner occupied properties.

The Group determines if a recently acquired property expected to be used as investment property should be initially treated as a tangible fixed asset or as an investment property. In this framework, the Group takes into consideration the importance of the cash flows generated by the property regardless of the rest of the assets owned by the Group.

4 BUSINESS SEGMENTS

The Group's business segments according to the origin of the income per property type have as follow:

- shops segment
- offices segment
- fuel stations segment
- parking segment

The Group operates only in the Greek market and, hence, there is no breakdown by secondary business segments.

The breakdown of financial results, assets and liabilities per segment is as follows:
